

SELECTION & SPECIFICATION DATA

Generic Type	Semi-Liquid Mildewcidal Additive
Description	ADD-2 Mildewcide Additive is an effective fungicide which provides long-lasting protection against both mold & mildew in water-based, alkyd, and epoxy coatings. It is also acceptable to use in polyurethane finishes but is less effective due to the slower leach rate. Ideal for contractor use in interior and exterior coatings projects.
Features	<ul style="list-style-type: none">• EPA registered fungicide which inhibits the growth of mold & mildew on interior and exterior coatings• Blends into well into water-based, alkyd, and epoxy coatings• Long-lasting protection against mold & mildew• Versatile use in interior & exterior water-based, alkyd, and epoxy coatings• Will not affect color or performance of coatings• Conveniently packaged in a 10-gram, easy-to-dispense pouch• EPA Reg No. – 39967-43-71240• EPA Est. No. – 33967-NJ-01
Color	Light Yellow* *Will not change the color of coating to which it is added
Typical Uses	ADD-2 Mildewcide Additive is used in finish coats to prevent the growth of mildew. It is best used in water-based, alkyd, and epoxy coatings. It is also acceptable to use in polyurethane finishes but is less effective due to the slower leach rate.

MIXING & THINNING

Mixing	Add a 10 gram packet of ADD-2 Mildewcide Additive to each gallon of coating. While stirring, add the contents of the pouch and continue mixing until uniform consistency. For more aggressive or problematic areas, two – 10 gram packets per gallon can be added. One carton of twelve – 10 gram packets will treat up to twelve gallons. Follow application instructions for the appropriate product's data sheet.
