

# Carboxane® 2000 Series

**Carboxane 2000 Series products are premium, ultra-weatherable, high performance finish coatings for long term appearance of structures.**

**PRODUCT DETAILS** The series includes both a high gloss and satin finish formulation that provides outstanding color and gloss retention with extremely long-term chalk resistant properties. Carboxane 2000 Series products are extremely UV-stable, hybrid-siloxane formulations that exhibit ultra weathering durability, color and gloss retention, and chalking resistance. When used in combination with a zinc-rich priming system they offer extreme long-term corrosion and weathering protection. They are isocyanate-free and far surpass the weathering of even high grade polyurethanes.

## CARBOXANE 2000

- › Gloss finish siloxane

## CARBOXANE 2000 SATIN

- › Satin finish siloxane

## APPLICATIONS

BRIDGE AND HIGHWAY

WATER AND WASTEWATER

OIL AND GAS

OFFSHORE

ARCHITECTURAL

COMMERCIAL

MARINE

POWER

## FEATURES

- › Ultra-weatherable
- › Extremely long-term color and gloss retention
- › Long-term chalk resistance
- › Two gloss levels to choose from
- › High build formulations; eliminates an intermediate coat
- › Excellent barrier properties
- › Custom colors available
- › Applies by brush, roller or spray

# Carboxane<sup>®</sup> 2000 Series

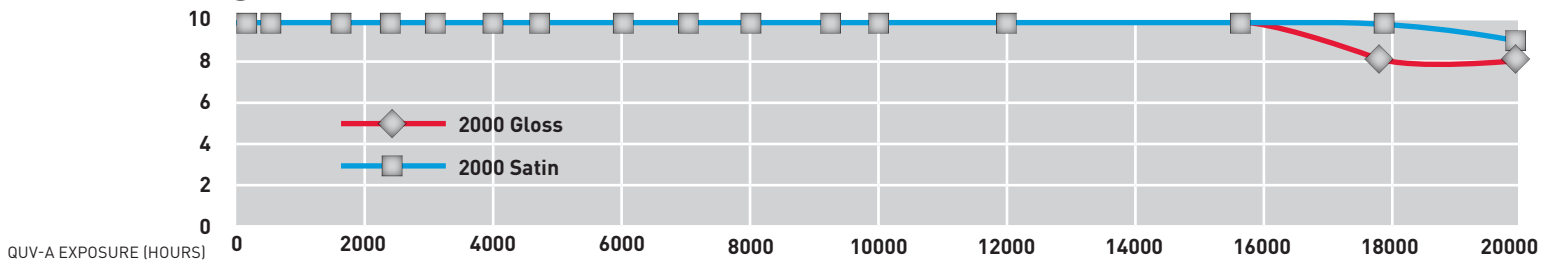

## Quality Product Backed by Quality Service

- › Carboline Company has been solving tough corrosion and fireproofing problems since 1947
- › Industrial service centers and sales offices located around the world
- › Over 20 worldwide manufacturing locations with a global network of sales and technical support
- › Industry leading field service and technical engineering support team
- › Certified to ISO 9001

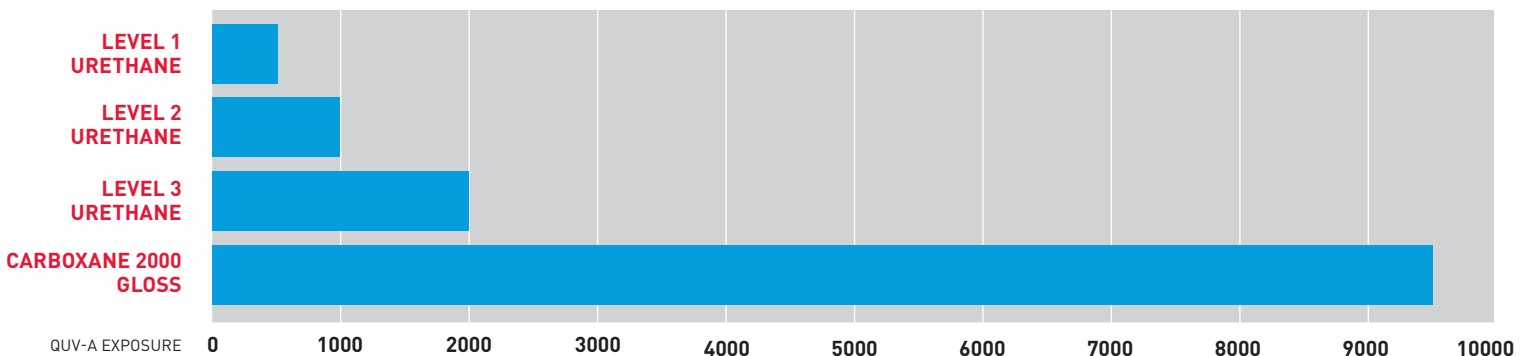

## Reasons To Use Carboxane 2000 Series

PERFORMANCE FEATURE	ADVANTAGE	BENEFIT
Hybrid-siloxane formulation	High-strength molecular bonds for extreme resistance to UV degradation	Long service lives; fewer repaints
High build properties	Better barrier protection	Often eliminates a coat for labor savings
Applies by brush, roller, or spray	Application method to fit the specific need	Applicator-friendly

## Chalk Rating

## Weathering Performance (Time to 25% Gloss Loss)
