

# Product Case History

## PROJECT DESCRIPTION:

Silos in chemical treatment area of waste water treatment plant. Silos are adjacent to dry chemical handling building and a waste water clarifier.

## COATING SELECTION EXPLANATION:

Existing coating was exhibiting cracking and intercoat adhesion issues. Carbogurad 890 was selected as the primer to offer more chemical resistance than a conventional epoxy primer.

## Bossier City Red River WWTP

**LOCATION:** Bossier City, LA, United States

**DATE OF APPLICATION:** August 2008

**MARKET:** Water & Wastewater

**OWNER:** City of Bossier

**PROJECT SIZE:** 10,000 Square Feet

**AREA COATED:** Exterior Coating

SUBSTRATE: Steel

EXPOSURE: Exterior Weathering - moderate industrial exposure - chemical environment

SURFACE PREP: SSPC-SP 6 (Commercial Blast)

PRODUCTS: Carboguard 890, Carbothane 134 HG
