

Carboxane® 950 VOC

Provides long-term color and gloss for the beautification of water towers and exterior structures.

PRODUCT DETAILS Carboxane 950 VOC is a premium, ultra-durable ambient cured fluorourethane finish. Carboxane 950 VOC is a VOC-compliant coating that provides excellent weatherability displaying unparalleled color and gloss retention. Carboxane 950 VOC exceeds the performance requirements of AWWA D102 OC-4 for the painting of the exterior of water tanks and can be considered an upgrade to the standard system. This coating also meets the performance requirements for AAMA 2604, including the ability to adhere to aged PVDF finishes. Available in gloss and satin finishes as well as metallic finishes with clear coats. Carboxane 950 VOC offers a level of durability for field application previously not available in the construction industry.

APPLICATIONS

WATER & WASTEWATER
BRIDGE & HIGHWAY
COMMERCIAL & ARCHITECTURAL
OEM
PETROCHEMICAL

FEATURES

- › Performance upgrade for AWWA D102-11, OCS-4
- › Meets performance requirements of AAMA 2604 (industry standard for PVDF finishes)
- › Exceptional color and gloss retention
- › Available in a variety of Carboline colors
- › Excellent flow characteristics allow for application by spray or roller
- › VOC compliant to current AIM and OTC regulations
- › Ambient temperature cure

Carboxane 950 VOC

Quality Product Backed by Quality Service

- › CarboLine Company has been solving tough corrosion and fireproofing problems since 1947
- › Industrial service centers and sales offices located around the world
- › Over 20 worldwide manufacturing locations with a global network of sales and technical support
- › Industry leading field service and technical engineering support team
- › Certified to ISO 9001

Reasons to use Carboxane 950 VOC

PERFORMANCE FEATURE	ADVANTAGE	BENEFIT
Fluorourethane technology	Long-term color and gloss retention	Less maintenance required
Flow properties	Excellent application properties	Can be applied by brush, roller or spray
