

# Protecto-Coat EPG

PRODUCT DATA SHEET

### SELECTION & SPECIFICATION DATA

Generic Type Glass Flake-Filled Epoxy Phenolic Lining

# Description

A self-priming amine-cured, epoxy phenolic, glass flake-filled coating designed for use in highly corrosive environments where abrasion and chemical resistance is required. This product also exhibits excellent heat resistance.

- · Excellent overall chemical resistance
- **Features**
- · Easily applied by spray · Acceptable for use over stainless steel
- · Excellent barrier protection

# **Typical Uses**

- · Chemical storage tanks
- · Under insulation on carbon and austenitic stainless steel
- · Chemical Plants
- · Pipe exteriors

**Color** | Medium Grey (0766), Light Grey (0725), Tile Red (6562)

Primer Self-priming

3 - 7 mils (76 - 178 microns) per coat

**Dry Film Thickness** 

Two coats at 10-14 mils total DFT are required for immersion service.

Solids Content | By Volume 65%

# **Theoretical Coverage**

Rate

1043 ft²/gal at 1.0 mils (25.6 m²/l at 25 microns) 348 ft²/gal at 3.0 mils (8.5 m²/l at 75 microns) 149 ft²/gal at 7.0 mils (3.7 m²/l at 175 microns) Allow for loss in mixing and application.

As Supplied: 2.7 lbs/gal (323.5 g/l)

**VOC Values** 

Thinned 5%:

2.95 lbs/gal (353.5 g/l)

Dry Temp. Resistance | Continuous: 400°F (204°C)

- · Sour and sweet crude
- · Wastewater/salt water

**Chemical Resistance** 

- Methyl tert-Butyl Ether (MTBE)
- Weak acids/weak caustics (PH 2.5-11)
- · Most aliphatic and aromatic compounds

## SUBSTRATES & SURFACE PREPARATION

#### General

Surfaces must be clean and dry. Employ adequate methods to remove dirt, dust, oil and all other contaminants that could interfere with adhesion of the coating.

Immersion and heavy spillage service: White Metal, SSPC SP 5 or NACE 1, minimum 3.0 mil profile.

#### Steel

Heavy non-immersion service (i.e. fumes and spillage): Near white, SSPC SP 10 or NACE 2, minimum 2.0 mil profile.

Atmospheric service: Commercial SSPC SP 6 or NACE 3, minimum 2.0 mil profile.

# **Protecto-Coat EPG**

PRODUCT DATA SHEET

#### SUBSTRATES & SURFACE PREPARATION

**Non-Ferrous Metals** 

Prepare by abrasive blasting to SSPC-SP 17 Thorough Abrasive Blast to a minimum of 3 mils (75 microns) dense angular anchor profile.

### MIXING & THINNING

Alselm as

Mechanically mix part A until a uniform color is achieved. Slowly add the part B. Mix for 1-2 minutes. Allow a 5-10 minute induction time before applying.

Mixing

If needed, thin 5% with Carboline Thinner 10 or Thinner 221 or a 50/50 blend of both. No other thinner is recommended without approval from Dudick's technical department.

Ratio | 9:1 by volume (A:B)

Pot Life

2 hours @ 77°F (25°C) 1 hour @ 90°F (32°C)

## APPLICATION EQUIPMENT GUIDELINES

Listed below are general equipment guidelines for the application of this product. Job site conditions may require modifications to these guidelines to achieve the desired results.

Pump Ratio: 30:1 (min)\*

GPM Output: 2.5 (min)

Airless Spray Material Hose: 3/8" ID (min)

Tip Size: 0.017-0.021" Output PSI: 1500-2300

Filter Size: 60 mesh

Brush & Roller

Roll: Solvent resistant 1/4" nap roller. Keep roller wet. Roll in one direction.

(General) Brush: Use a solvent resistant brush for edges and details.

## **APPLICATION CONDITIONS**

Condition	Material	Surface	Ambient	Humidity
Minimum	60°F (16°C)	50°F (10°C)	50°F (10°C)	0%
Maximum	90°F (32°C)	110°F (43°C)	110°F (43°C)	85%

Substrate temperature must be 5°F (3°C) above the dew point.

#### **CURING SCHEDULE**

Surface Temp.	Dry to Touch	Minimum Recoat Time	Maximum Recoat Time	Cure for Service
77°F (25°C)	4 Hours	6 Hours	3 Days	7 Days

Cure times are listed @ 4-5 mils.

• 14 hours @ 140°F (60°C)

• 10 Hours @ 160°F (71°C)

• 6 Hours @ 180°F (82°C)

• 4 Hours @ 200°F (93°C)

# Protecto-Coat EPG

PRODUCT DATA SHEET

#### CLEANUP & SAFETY

Cleanup | Use S-10 solvent or Carboline Thinner 2 to clean equipment.

Safety

Read and follow all caution statements on this product data sheet and on the SDS. Employ normal safety precautions. Keep container closed when not in use.

Ventilation

Ventilation must be used during and after application until the coating is cured. The ventilation system should be capable of preventing the solvent vapor concentration from reaching the lower explosion limit for the solvents used. User should test and monitor exposure levels to insure all personnel are below guidelines. Use MSHA/NIOSH approved air respirators as needed.

Caution

Fire and explosion hazards: This product contains less than 1% volatile components, however, vapors are heavier than air and can travel long distances, ignite and flash back. Eliminate all Ignitions sources. Keep away from sparks and open flames. All electrical equipment and installations should be made and grounded in accordance with the National Electric Code. In areas where explosion hazards exist, workers should be required to use non-ferrous tools and wear conductive and non-sparking shoes.

## PACKAGING, HANDLING & STORAGE

1 Gallon Kits:

Part A: 0.9 Gallons (in a 1 gal can) Part B: 0.1 Gallon (in a 1 pint can)

**Packaging** 

5 Gallon Kits:

Part A: 4.5 Gallons (in a 5 gal pail) Part B: 0.5 Gallons (in a 3.5 gal pail)

**Shelf Life** 

Part A: 12 months Part B: 12 months

Storage

Warning: All Dudick products classified with DOT labels as either white, yellow or red labels must not be mixed or stored together as an explosive reaction can occur.

All products should be stored in a cool, dry area away from open flames, sparks or other hazards.

Shipping Weight

1 gallon kits: 14.0 lbs (Approximate) 5 gallon kits: 60.5 lbs

#### WARRANTY

To the best of our knowledge the technical data contained herein is true and accurate on the date of publication and is subject to change without prior notice. User must contact Carboline to verify correctness before specifying or ordering. No guarantee of accuracy is given or implied. Carboline warrants our products to be free of manufacturing defects in accord with applicable Carboline quality control procedures. THIS WARRANTY IS NOT VALID WHEN THE PRODUCT IS NOT: (1) APPLIED IN ACCORDANCE WITH CARBOLINE'S SPECIFICATIONS, AND/OR (2) PROPERLY STORED, CURED, AND USED UNDER NORMAL OPERATING CONDITIONS. Carboline assumes no responsibility for coverage, performance, injuries, or damages resulting from use of the product. If this product is found not to perform as specified upon inspection by a Carboline representative during the warranty period, Carboline's sole obligation, if any, is to replace the Carboline product(s) proven to be defective or refund the purchase price thereof, at Carboline's sole option. Carboline shall not be liable for any other losses or damages. This warranty excludes (1) labor and costs of labor for the application or removal of any product, and (2) any incidental or consequential damages, whether based on breach of express or implied warranty, negligence, strict liability or any other legal theory. NO OTHER WARRANTY OR GUARANTEE OF ANY KIND IS MADE BY CARBOLINE, EXPRESS OR IMPLIED, STATUTORY, BY OPERATION OF LAW, OR OTHERWISE, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. All of the trademarks referenced above are the property of Carboline International Corporation unless otherwise indicated. The whole text of this Product Data Sheet, as well as the documents derived from it, have been written in English, and for legal purposes the English version shall prevail.
