

SELECTION & SPECIFICATION DATA

Description	Non-metallic; non-silica based non-skid filler
Features	<ul style="list-style-type: none"> • Provides non-skid properties • Excellent durability • Easy to mix; non-settling filler • No constant agitation needed • Non-sparking filler
Typical Uses	A unique filler that can be added to a variety of thin-film coatings to produce a slip-resistant surface. Non-skid properties show superior performance over other “larger” aggregate fillers, even when wet. Smaller fillers increase the contact surfaces of workers shoes to the surface and provide excellent non-slip properties.
Product Compatibility	Non-Skid Filler #1 can be used in any number of products to improve non-slip properties. Most commonly used products include high solids epoxies. Non-Skid Filler #1 is suitable for use in products like Carboguard 890, Carboguard 690, Carboguard 60, and Carboguard 635. Consult with Carboline Technical Service for other specific recommendations.
Packaging & Shipping Data	Packaged in containers in two convenient sizes: 1-pound units and 5-pound units.

APPLICATION PROCEDURES

Application	Consult individual product data sheet where filler is to be used.
Mixing	<p>The filler is added at 1 lb for every mixed gallon of coating, depending upon application- consult Technical Service for details.</p> <p>For two-component products power mix A & B separately, then combine, and power mix. Slowly add filler while continuing to power mix until a homogeneous mixture is achieved. After well mixing, continuous agitation is not needed for this product.</p>

PACKAGING, HANDLING & STORAGE

Shelf Life	60 months at 75°F (24°C)
Storage Temperature & Humidity	40° -110°F (4°-43°C) Store indoors. 0-100% Relative Humidity
Shipping Weight (Approximate)	1 lb. unit 5 lb. unit
Flash Point (Setaflash)	N/A
