

Carbocoat® 75

Carbocoat 75 provides an economical solution for projects that require a good quality high gloss alkyd finish.

PRODUCT DETAILS Carbocoat 75 provides a good quality high gloss alkyd finish coat that can be applied either direct-to-metal or over approved Carboline primers. This durable coating provides a smooth attractive appearance with good weatherability. This may eliminate the requirement for primer. Its good flow and leveling characteristics provide a smooth attractive high gloss finish. This finish provides good abrasion resistance and good gloss retention in UV exposure. The combination of good durability and weatherability helps extend the service life, which ultimately leads to lower overall costs.

APPLICATIONS

MARINE

OIL & GAS

RAIL

PETROCHEMICAL

POWER

COMMERCIAL & ARCHITECTURAL

FEATURES

- › Economical, smooth, attractive, high gloss finish
- › Direct-to-metal, DTM, application if desired
- › Good corrosion resistance
- › Good durability
- › Good weatherability, color and gloss retention
- › Good application characteristics

Carbocoat 75

Quality Product Backed by Quality Service

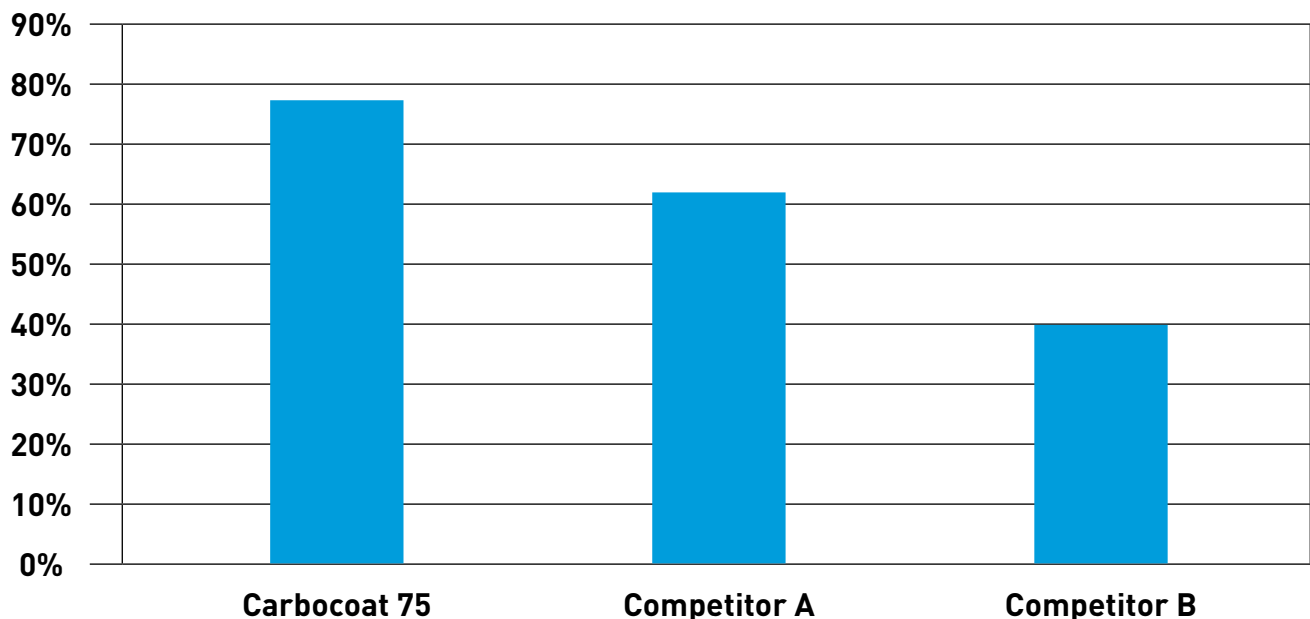

- › Carboline Company has been solving tough corrosion and fireproofing problems since 1947
- › Industrial service centers and sales offices located around the world
- › Over 20 worldwide manufacturing locations with a global network of sales and technical support
- › Industry leading field service and technical engineering support team
- › Certified to ISO 9001

Reasons to use Carbocoat 75

PERFORMANCE FEATURE	ADVANTAGE	BENEFIT
Can be applied DTM	Eliminating the requirement for a primer	Saves time and money
Good weatherability	Resistance to loss of sheen and color change in exterior exposure	Looks better longer
Good application characteristics	Can be applied by spray, brush, or roller	Smooth, high gloss finish with attractive appearance

Carbocoat 75 has good long-term color and gloss retention in UV exposure

% Gloss Retention at 240 Hours Per ASTM D4587
Fluorescent UV-Condensation
