

CERTIFICATE OF COMPLIANCE

Carboline Record of TBT-Free Antifouling **Carboline's C-Flex 45**

Carboline

hereby confirms that Carboline's Antifouling C-Flex 45 applied on the underwater area of the vessel

Ship Name _____

IMO No. _____

Date Applied _____

Yard/Location _____

is a TBT-Free and Cybutryne-Free antifouling paint that complies with the requirements to antifouling systems as stated in the IMO Convention on the Control of Harmful Antifouling Systems on Ships (AFS/CONF/26), adopted 5 October 2001 in London.

Carboline's Antifouling C-Flex 45, colors red and black, is a self-polishing antifouling paint type, containing the following active ingredients:

- Cuprous Oxide, CAS No. 1317-39-1

This certificate confirms the antifouling paint, C-Flex 45, was applied to the vessel mentioned above according to Carboline's recommendations. Being a manufacturer of Carboline's Antifouling C-Flex 45, Carboline keeps records of deliveries of antifouling paints and inspections carried out in relation thereto.

The IMO Guidelines for Survey and Certification adopted October 2002 govern the issue of the Statement of Compliance and the issue of the International Anti-fouling System Certificate. This Carboline declaration contains the information required by the IMO Guidelines. The information will also be available from the Material Safety Data Sheet.

Carboline and any of its subsidiaries and/or affiliates cannot be held liable for any consequences arising out of or in connection with the information provided in this certificate.

You are welcome to contact Carboline for further details.
